PANSY FARM
Perennials

BRISTOL, PA.

TO OUR FRIENDS AND CUSTOMERS:

For Pitzonka's Pansy Farm to offer a list of plants omitting Pansies and Violas is like playing Hamlet without Hamlet. But that is just what we are doing this year. When we published our wholesale list last year, we hoped that this season would find us able to offer our usual line of varieties. Instead of that, the critical shortage of help makes it impossible for us to handle Pansies and Violas in quantity.

We are therefore concentrating on perennial plants in this folder--items more easily and quickly handled by our depleted force. As before, a great part of our fields are given over to food production and a large percentage of our workers are still in the armed forces or defense plants. We ask our old friends and customers to consider these facts and to be patient until the time comes when we can again tend to their wants in our usual manner.

What we offer here is of very high Pitzonka quality. That we have not sacrificed, and do not intend to sacrifice, for it is what has built our business.

Sincerely yours,

PITZONKA'S PANSY FARM

Until After the War...

We shall not offer Pansies and Violas to the wholesale trade. Shortage of help makes this step necessary. We ask for your patience until we are able to supply them again.

Pitzonka plants are
transplanted, field-grown
stock grown by men who
know how.

In this folder we have emphasized those
tried and true hardy perennials which are
easily handled by the nurseryman and easy to
grow in the home garden. Most people do
not yet have peacetime leisure in which to
fuss with plants. Those offered here will
satisfy the natural desire for colorful, fragrant
blooms with a minimum of care.
